Hi Michael,

Hope all is well. How are things up north? Hopefully you are avoiding the heatwave. When you get a chance can you modify your scripting to add the county field (described below) to the GIS.DATABASES\_WELL\_PERMITS layer in SDE?

Thanks  
Danny

**Subject:** New Item: 3611 - WELL\_PERMIT missing field

Submitted by: Leigh Brooks

Description:

In SDE, GIS.DATABASES\_WELL\_PERMITS the field for well county is missing. I need this in analysis I'm doing for Water Supply Assessment. The field had been there recently. Tom Brown and I met and agreed the county should be included.

Thank you.
