No problem. I will be out of the office tomorrow, but will be back on Thursday. I'll be gone starting on 23rd-6th. YAY!

Yamila,

I just finished a milestone on another project, and will be working on the task below first thing tomorrow morning. I don't know if you had quite this much time in mind when you said "no rush", but I thank you for giving me the chance to clear my plate first.

I'll be back in touch tomorrow, either with questions or with notice that the update is ready. Thanks.

-Michael

Subject: gis.databases_well_permits

please add the following fields to what is already in your script for well_permits

- Job Type => well_permits.Job_type (decode C=Construction, A=Abandonment, R=Repair, M=Modification)
- Status => well_permits.Application_status (decode with values from look up table wpslstat)
- 1st Rel Permit => well_permits.Related_well_permit
- Contractor Name => First_name || ' ' || last_name from wpsdrillers where cont_license=well_permits.cont_license
- Completion Date => Well_completion.completion_date
- WCR Date => Well_completion.cr_date
- Exemption => well_permits.Exemption_fee (Y/N values, null values ='N')

There is no rush on this. Please call me if you have any questions.
